

REPLY I.D.: jgdk

Hello Julia, WOW, some of your transcriptions are starting to flow in regularly. So exciting, and we really appreciate your work. The NGR work is uber important to our next move, Piankhi and I really dug into research, and we believe the hard work was worth every minute we've invested in this awareness movement, although many youth will engage this work, I personally want my next generation to engage us, as well, they are the reason I stay committed to positive youth development.

Oh, the @Golgotha w/ Joe interview is also in this packet, again, thank you; can you look around to see if you can find @Golgotha w/ Alphonso? We have been looking for it and hoped that you or someone has transcribed that interview as well, I want my Mom to read it because I mention her in this interview, I want it to be a proud surprise for her.

A lot of the @Golgotha Interviews have already been transcribed in the past, could you reply to us a list of the @Golgotha interviews posted @ BTB under interview file/section that would be valuable information for us and our records so we know exactly which @Golgotha interviews are still posted. Thanks Again
