- THE HAVE TO STOP LYING OR THE SYSTEM IS DOOMED / NORFOLK WARDENS

If the Norfolk Wardens cannot stop lying to the prisoners we will never be able to lower recidivism or enhance public safety efforts. It is a daily practice here, no kidding, and I'll give you just a couple of examples:

- They say there is a "Water Shortage" and that the prison is participating in "Water Conservation". It is all a lie: total bullshit. They have to limit the water usage due to the fact that the prison is operating at double its design capacity and the water table cannot handle the usage. If water was used at a normal rate there would be daily leeching field floods down by the gym and then an extensive "eco clean-up" would have to be paid for. The asspuppets that run the joint can't risk telling that truth as the closure of the prison might be called for, and you can't have that, no harm can come to the goose that lays the shit covered golden egg. Fucking liars!

- The abusive and absolutely morally bereft Food Services Director here uses money budgeted solely for the feeding of the prisoners to purchase what he calls "Overtime Meals" for the pigs. What this means is that fancy cordon bleu chicken, pork loins, 100% beef burgers, and hosts of other "good tasting" food is purchased using monies solely for prisoner food, or the "not good tasting" food. This shitbag - The Green Chickenhead - has already been caught doing this, got his slap on the wrist and made a million excuses, and now is back at it. He is a fucking liar!

- The facility, and the Department of Corruption in general, falsely tout a "Family Reunification" component. This is one of the biggest lies they tell. Try to organize one of these events. You have to jump through so many hoops that you are better off trying to solve perpetual motion equations. They know sincere family visitation and meaningful interaction promotes rehabilitation, but they are not at all interested in that. This is jobs program for abusive dolts who hate themselves. This is why they took away the state welding certifications, cut way back on Boston University's College Program (but they did not cut the scholarships for the pigs demon spawn), and allow gang members to smoke Synthetic Marijuana all day right out in the open while Zena The Warrior Princess runs around "pecka-checking" junkies and rats. She has cleaned more carpets than the Hoover Corporation but lists on her resume "Suboxone Sycophant." Fucking lying oxygen wasters.

I'm sad to report that the Norfolk Wardens, The WallyWorld Wackos, just can't stop lying and it is why the system produces a 66% recidivism rate as recently reported by Mass. Inc. How can you tell when they are lying? When there lips are moving!

More To Come...
