LOYALTIES

The essence of a person, is not to whom their loyalties lie, rather, the integrity of their loyalties. Self-loyalty is more than just an affirmation, it is loyalty in its truest application. In a world where there are more lies than truth, more pain than pleasure; there can only be black or white and no shades of grey. A person of loyalty who can find no kinship amongst others has no recourse saving ^{thru} to be loyal to self. One who loves, must love, even if it is ^{only} to love oneself. Loyalty to oneself is no different than loyalty to another; it is blind, unyielding, without respects to right or wrong.
