

BIDEN'S AMERICA

I am baffled by the United States today. How did we let the government and media get so out of hand? We currently have the worst and most unpopular president in U.S. history, and sadly Biden is set on finishing what he and Obama (the second worst president in U.S. history) started. They are destroying the morals of America and its economy right in our face, and if we speak out or act out against them, we get labeled as terrorist and anti-American.

I say that a lot of these idiots making new laws need to be labeled as the traitors they are and charged with treason, Biden included, with all their Marxist styled ideas for future America. It's as if people today are forgetting exactly what socialism actually is and what it turns into:

so·cial·ism [s?sh? liz?m] n

1. political system of communal ownership: a political theory or system in which the means of production and distribution are controlled by the people and operated according to equity and fairness rather than market principles
2. movement based on socialism: any of several political movements or theories of the 19th and 20th centuries based on principles of socialism, typically advocating an end to private property and the exploitation of workers
3. stage between capitalism and communism: in Marxist theory, the stage after the proletarian revolution when a society is changing from capitalism to communism, marked by pay distributed according to work done rather than need

Stop voting for the socialists/communists and groomers posing as democrats! Since they took over, the only economy that's been striving are the communist countries, who I am sure are getting a good laugh at us right now. Recently the U.S. suffered a security leak that revealed multiple impeachable offences by Biden, like illegally sending special forces to murder foreigners in Ukraine without proper approval! Our government controlled media is covering the leak, but not the leak's content! A basic misdirect, and Americans are sadly falling for it. We need to push our freedom of speech more and force out the government's truths. Save America.
