

WAITING FOR GODOT

17 March 2024

Father John,

Thank you for your thoughtful and insightful comments on my essay DO THE MATH, and maybe? THE LOGIC.

From what I can gather so far, the state Guardians of The Public Trust are looking at cutting Education's budget with little mention of the bloated prison budget. Of course with this logic it is assured prisons will continue well into manymore generations.

To provide you a little more insight as to the plight of elderly in prison I'm sending copies of an OPEN letter to the San Francisco law firm that is paid to advocate for the elderly & disabled, along with a reply to an order to me to report to an impossible work assignment. The same assignment was given to an 88yr old, blind prisoner that's afraid to object.

Bear in mind, as you read this material, its the 21st century!

The Fox assures us "All chickens are dangerous!"
