" CAPITAL PUNISHMENT "

It is said that capital punishment is all about the capital. Your capital income. And that's the hardcore truth. If you have capital then your loved ones are safe. But if your some poor middle-class American then your life has no value whatsoever in this American Judicial system. I hear time and time again Americans say we've got the greatest Justice system in the world. What I say to that, is we've got the greatest propaganda machine at selling that non since. Because how many other civilized countries murder their citizens under the false pretense of Justice? And not just murder those who are guilty of a crime, but they murder innocent citizens who got caught up in some overzealous police officer and prosecutors tunnel vision. Where they then fabricated evidence and false testimony to get the conviction. Because they thought they had the right man or woman. Let's face it, this country is responsible for the highest form of premeditated murder on its innocent citizens. I know you may not want to hear that. But its the truth. Some have been blessed with delayed appeals to where DNA evolved enough to prove their innocence. Unfortunately others didn't get that blessing. And they were marched off into the death chamber and murdered. We've got two men here needing DNA to prove their innocence. The court granted it and the state appealed. What kind of garbage judicial system is that? Where they deny actually innocent claims and deny a man the evidence needed to save his life? Greatest in the world?! Okay greatest in comparison to some third world Communist county. Well maybe. But we do have one thing that is greater than any other country, and that is this propaganda machine that sells this ungodly death penalty to its people. Wake up! Because it is all about the capital, and those who lack that capital will face the sever punishment of death. Fight to abolish this severely flawed and unjust punishment that is nothing more than murder. God bless you all. And you must be the voice of reason.

In Peace and love Ronald W. Clark Jr. #812974
